

PITBULL

# PB148 STATIC GRIZZLY

A Grizzly screen built for hard work and tough applications.

## The Pitbull Grizzly is the perfect solution to removing large debris.

Our heavy frame constructed from structural steel tube assures our Pitbull Grizzly will stand up to the toughest applications, from shot rock to demolition debris. Standing 10 feet at its highest point this Grizzly comes standard with 18 bars set at 4 inches apart. Two clamps lock in each bar. Bars can be easily removed or added in minutes for a larger or smaller opening. Our bars are set on edge to promote a self-cleaning action, minimizing the probability of material lodging between bars.
